

## 2009 Healings

1. Before going in for a cauterization 2 years ago, I placed the Green Scapular into my sock. I needed to have a stent put in. As the doctor proceeded, the plaque fell away from the wall and my heart gave out. Quickly, I was rushed in for an emergency open heart surgery. Doctors gave me a 10% chance of survival. I believe that having the Green Scapular on me gave me a miraculous healing. Even the doctors were surprised and called it a miracle that I survived. Because of this miracle, I haven't given the Green Scapular to many people. Thank you Mother Mary and Jesus for giving me a second chance at life. I will be forever grateful! Lee C.
2. My Fiancée is not Catholic. He is eagerly learning about my Catholic faith. I have been praying to the Blessed Mother for his conversion. Recently, I mailed him a green scapular. As I slipped it into the letter, I smelled the strongest scent of roses. It was like someone had spilled rose-oil on my desk. I thought maybe the paper was scented, so I started smelling various objects to figure it out. The smell vanished. I sealed the envelope, and again distinctly smelled roses. This time I asked my mom if she could smell it. No one else could. A few days later, my fiancée told me he received that "little green charm thing" and had hung it in his truck like I asked. I again smelled roses. I thank the Blessed Mother for giving me this sign. As the scapular works to the degree of faith put into Her, I now know beyond a doubt that he will become Catholic. Immaculate Heart of Mary, Pray for Us Now and at the Hour of Our Death.
3. Three weeks ago, my wife's 7 weeks pregnancy was pronounced by our doctor as being not viable after a scan test. This pronouncement left my wife Ijeoma and I very worried and devastated. Yet I did not lose faith in what the Lord can do. The next day, we went for scan in another Lab but the result was the same.
4. My hard-hearted friend, whom I love dearly, found a "church" that did not criticize her for living with her boyfriend, years ago. I put her on a green scapular. Only ten years later, she and her family are practicing Catholics! WONDERFUL results from Our Lady!!
5. last summer i did a house blessing a placed a blessed green scapular in each of the four corner's of the house. last nite 7-13-09 mom smelled what she thought was something burning she sent Scott down stair's he came back up and told mom the electrical box was on fire he somehow managed to put it out the next morning while it was light out and could see better he took out the box the wire's was all melted together the box was charred he couldn't understand why the house didn't get engulfed in flames and burnt down to the foundation the box and wires was replaced the rest of the house is just fine thanks to our blessed mother she protected not only the house but my mom grandma my daughter and her two kids one's 2 the other is 5 month's old. From Julie in Illinois.
6. My officemate Bebie asked me to share her experience with the green scapular. She had a surgery for myoma removal in 2008. She asked her nurse to place the green scapular in her hand. Aside that her operation was successful she never experience any pain at all after her anesthesia had subsided. Two days later her it seems as if she was operated five days ago because her wound was healed so fast. Thanks be to Jesus through Mary! Miriam C.
7. I had the green scapulars placed in the four corners of my house.. aside from opening my bible always in Psalm 91. We were protected by Mama Mary from evil ones in the guise of my household help that i had hired a few days ago. She lived inside my house for 21 days and thank God she was discovered that she was a sex maniac. She tried to seduce my husband but she was not successful and even accused my husband falsely. Thanks be to Jesus through Mary for saving my family. Miriam C.
8. I became Catholic in year of 2005! I love being ,Catholic!! I seriously woke up one day ,and said to myself this is it ?I've been wanting to go to my local Catholic Church St. Thomas, end of 2003. After first Mass, I went everyday until I had my baby! Few months later being of 2004, I found myself going to the other St. Thomas Church at 6:30 am everyday! Next thing my body propelled me to do the rosary after Mass never missed a day .For a year and a half, the day I went into labor! Anyways I was drawn to your church of a power not in me and still till this Day, July 2009. I am practicing! AMEN TO JESUS. However there is so much to learn about the Catholic faith. I'd like to know more about the Green Scapular. Since my husband's Mother is very ill, in the Hospital?
