

VISIONS GIVEN ON OCT. 17 & 18, 2010

Three visions were given to Anna Marie, which we are posting for your review and prayer. All visions given to anyone must be discerned by you, the reader of such information. When we ask the Lord for the truth, He certainly will answer us in truth. We also ask you for more prayers, to pray these events do not come to fulfillment.

October 17, 2010

During Mass and after Holy Communion, while in prayer of thanksgiving to Jesus Christ for His death on the cross, Anna Marie witnesses a ripple in the water. The water moved outward around three feet and rose approximately one to two inches above the water. It appeared as if an earthquake moved the water, or the quake came from underneath the water. We have placed this vision on a blessed Green Scapular for God's mercy.

The second vision during Holy Communion was that of a red dragon. The dragon came towards Anna Marie, but stopped off her right shoulder. There was no meaning understood by Anna Marie about this vision, but it appeared to symbolize a Chinese dragon.

October 18, 2010

While Anna Marie was in prayer, the Lord permitted her to see a most frightful vision. The vision was that of many people who died by extreme heat. Only a few people were seen in the vision, and they looked similar to the people of Pompeii who died when a volcano erupted and overcame their village. Their figures were still visible, they were human, but they had no facial, clothing, hair details. They looked black to the color. One person, who appeared to have been sitting in a chair, fell backwards in the chair but the chair was gone, probably burned up. The person's legs were still bent as if sitting in a chair. This vision, like all visions, was written on a blessed Green Scapular for the mercy of God not to allow it to come true.

We ask all Apostles to pray to our Loving Savior, Jesus to ask His Father not to allow the fulfillment of any of these visions.
