

Catholic Military Chaplains Under Attack

Catholic Military Chaplains are being ordered to provide same-sex unions on Military Installations regardless of the "**Defense of Marriage Act**" which states marriage is between a man and women.

Clifford L. Stanley, Under Secretary of Defense for Personnel and Readiness wrote this new law in a two paragraph Memo in September 2011 (he is a political appointee NOT a legislator), indicating that Catholic Chaplains for the Military will provide same-sex unions on military installations.

Congressman, Tim Huelskamp, has written a House Bill so that Christian Military Chaplains have the right to object officiating a same-sex union ceremony on military installations. You must get involved and contact your [Congressional Leaders](#) and tell them you support Congressman Tim Huelskamp's House Bill, H.R. 3828, "[The Military Religious Freedom Protection Act](#)" which will stop same-sex unions on military installations.

Will you help stop this assault and abomination against Catholics.
